This document is for information only and do not constitute advice or a solicitation for funds. Investors should note that the value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Performance is further affected by uncertainties such as changes in government policy, taxation and other legal or regulatory developments. Past performance provides no guarantee of future performance. Collective Investment Schemes in Securities (unit trusts) are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions (brokerage, UST/VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio, divided by the number of units in issue. A schedule of fees, charges and maximum commissions is available on request from Cadiz Collective Investments. Commission and incentives may be paid, and if so, are included in the overall costs. Portfolios may be closed. Forward pricing is used. Cadiz Collective Investments' portfolios are valued daily at 15:00. Instructions must reach Cadiz Collective Investments before 14:00 (11:00 for Cadiz Money Market Fund) to ensure same day value. Cadiz Collective Investments (RF) (Pty) Ltd – Co. Reg.
