

Cadiz Worldwide Flexible Fund

Fund Information

FUND OBJECTIVE

The Cadiz Worldwide Flexible Fund seeks to provide investors with returns well above South African inflation over rolling 3 year periods. The Manager has the discretion to invest in opportunities across all asset classes globally in order to obtain the best risk-adjusted returns.

WHAT DOES THE FUND INVEST IN?

The fund can invest in local and global investments across equities, fixed interest instruments, listed property, derivatives and cash. Investments are selected at an individual security level where the Manager considers the risk of permanent capital loss to be low, with attractive risk-adjusted return potential. Equities will generally make up the bulk of the funds' investments in order to provide high (> 6% pa) long term real returns, but the Manager has maximum flexibility in terms of asset allocation and is not precluded from varying the asset allocation to reflect the Managers view of the attractiveness of different asset classes.

WHO IS THE FUND SUITABLE FOR?

- Investors with at least a 5 year investment horizon.
- Investors who are in their wealth accumulation phase seeking high long term real returns.
- Investors with a moderate to high risk profile.

INVESTMENT PHILOSOPHY AND PROCESS

We apply a long-term bottom-up, valuation driven process to uncover the most attractive risk-adjusted return opportunities for the various asset classes available in local and foreign markets. We follow an absolute process and construct portfolios to maximise return for an acceptable level of downside risk. Our equity investment approach is rooted in the belief that there are two values for every security, the first being the current market price, and the second what the business is worth to a knowledgeable buyer. This is referred to as intrinsic value, and the time to buy is when there is a large difference between the market price and intrinsic value, and the time to sell is when this price difference narrows. We determine intrinsic value by performing a detailed analysis of the financial statements and a qualitative assessment of the business and management. Our investment approach seeks to take advantage of short-term market pessimism by buying financially sound investments when they are typically out of favour and attractively priced.

FEES ON CLASS A (EXCLUDING VAT)

The information, opinions and recommendations contained herein are and must be construed solely as statements of opinion and not statements of fact. No warranty, expressed or implied, as to the accuracy, timeliness, completeness, merchantability or fitness for any particular purpose of any such recommendation or information is given or made by Cadiz in any form or manner whatsoever. Each recommendation or opinion must be weighed solely as one factor in any investment or other decision made by or on behalf of any user of the information contained herein and such user must accordingly make its own study and evaluation of each strategy/security that it may consider purchasing, holding or selling and should appoint its own investment or financial or other advisers to assist the user in reaching any decision. Cadiz will accept no responsibility of whatsoever nature in respect of the use of any statement, opinion, recommendation or information contained in this document.

This document is for information only and do not constitute advice or a solicitation for funds. Investors should note that the value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Performance is further affected by uncertainties such as changes in government policy, taxation and other legal or regulatory developments. Past performance provides no guarantee of future performance. Collective Investment Schemes (unit trusts) are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions (brokerage, UST, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio, divided by the number of units in issue. A schedule of fees, charges and maximum commissions is available on request from Cadiz Collective Investments. Commission and incentives may be paid, and if so, are included in the overall costs. Portfolios may be closed. Forward pricing is used. Cadiz Collective Investments' portfolios are valued daily at 15:00. Instructions must reach Cadiz Collective Investments before 14:00 (11:00 for Cadiz Money Market Fund) to ensure same day value. Cadiz Collective Investments (RF) (Pty) Ltd – Co. Reg. No. 2004/032263/07 Address: PO Box 44547, Claremont, 7735. A member of the Association of Savings & Investment South Africa. Trustees: ABSA Capital Investor Services.

Cadiz Worldwide Flexible Fund

Important information regarding terms of use

GENERAL INFORMATION AND RISKS

- Collective Investment Schemes in Securities (unit trusts) are generally medium to long-term investments.
- The value of participatory interests (units) may go down as well as up and past performance is not necessarily a guide to the future. The manager does not guarantee the capital, nor the income of the portfolio.
- Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing.
- Portfolios are priced daily and prices can be obtained from the website and in the daily newspapers or on Profile Data. Figures quoted are from Morningstar Inc.
- Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions (brokerage, UST, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio, divided by the number of units in issue.
- Different classes of participatory interests apply to this fund and are subject to different fees and charges.
- Performance is shown for the most expensive class of the Fund and individual investor performance may differ as a result of initial fees, actual investment date, date of any subsequent reinvestment and any dividend withholding tax.
- A schedule of fees, charges and minimum commissions is available on request from Cadiz Collective Investments.
- Commissions and incentives may be paid, and if so, are included in the overall costs.
- The manager has the right to close the portfolio to new investments in order to manage it more efficiently in accordance with the mandate.
- Cadiz Collective Investments' portfolios are valued daily at 15:00. Instructions must reach Cadiz Collective Investments before 14:00 (11:00 for Cadiz Money Market Fund) to ensure same day value.
- Transaction costs are necessary costs in administering the fund and impacts the fund returns. They should be considered in isolation as returns may be impacted by many factors over time including market returns, type of fund, the investment decisions of the investment manager and TER.

IMPORTANT INFORMATION FOR INVESTORS:

Total Expense Ratio (TER)

- TER is a measure of a funds expenses relating to administration of the portfolio expressed as a percentage of the average daily value of the fund over a three year period. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return.
- The sum of the TER and transaction costs is shown as the Total Investment Charge. Since Fund returns are quoted after the deduction of these expenses, the TER and Transaction costs should not be deducted again from the published returns.

Regulation 28 Compliance

- Where indicated the fund is managed to comply with Regulation 28 of the Pension Funds Act. Exposures in excess of the limits will be corrected immediately, except where, due to a change in the fair value or characteristic of an asset, e.g. market value fluctuations, in which case they will be corrected within a reasonable time period.
- The Management Company does not monitor compliance by retirement funds with section 19(4) of the Pension Funds Act (item 6 of Table 1 to Regulation 28).

Foreign investment risk

The portfolio may include underlying foreign investments. Fluctuations or movements in exchange rates may cause the value of the underlying foreign investments to go up or down. The underlying foreign investments may be adversely affected by political instability as well as exchange controls, changes in taxation, foreign investment policies, restrictions on repatriation of investments and other restrictions and controls that may be imposed by the relevant authorities in the relevant countries.

Derivative risk

The use of derivatives may increase the overall risk in the Fund by multiplying the effect of gains and losses.

Maximum drawdown

- A maximum drawdown is the maximum loss from peak to trough of a portfolio.
- It is an indicator of downside risk over a specified time period.

Sharpe ratio

The sharpe ratio is the average return earned in excess of one risk-free rate per unit of volatility or total risk.

Risks associated with investing in fixed interest and Money Market investments

- A money market fund is not a bank deposit account.
- Fluctuations in the market value of the securities in which a fixed income fund invests may have a negative impact on the fund. The income instruments are likely to be especially sensitive to changes in interest rates or changes in the market participants' expectations of how interest rates will change in future.
- There is a risk that certain corporate and other counterparties with whom the manager invests or through whom the manager transacts run into financial difficulty, and are unable to honour their commitments in full, which will lead to a potential loss of capital.
- There is a risk that in a high inflation environment, the securities in the Fund may appreciate at a rate lower than the inflation rate, and as such, the purchasing power of an investor's capital may decline.

Complaints

Cadiz Collective Investments are committed to handling client complaints in a timely and fair manner and has implemented systems and procedures to satisfy this commitment. The detailed Complaints Handling and Resolution Procedure is available on the website, or can be requested directly from the manager. A complaint should be lodged in writing with the Compliance Officer at investorservices@cadiz.co.za

An investor can obtain, free of charge, additional information on the proposed investment including, but not limited to, brochures, application forms and the annual report and any half-yearly report.
